in @KamelHitra

I am a passionate software developer with a solid foundation in Web technologies. Currently, I am pursuing a Master's degree in Computer Science for Autonomous Systems at Eötvös Loránd University (ELTE) in Budapest, supported by the prestigious Stipendium Hungaricum scholarship. My academic journey, coupled with hands-on experience in various roles, has honed my skills in developing scalable, secure, and high-performance applications.

PROFESSIONAL EXPERIENCE

Back End Developer

Medianet   Full-time   1/1/2023 - 15/8/2024

- In my full-time role at the consulting company Medianet, I work on developing and maintaining microservices and other gateway solutions. My responsibilities include designing and implementing scalable, high-performance applications, ensuring robust security measures, and integrating various technologies to enhance system efficiency and reliability.

Java Electronic Signature Developer

E-tafakna   Full-time   1/1/2022 - 1/9/2022

- I worked with E-tafakna to develop a secure electronic signature solution, allowing users to sign and generate contracts. The project leveraged advanced cryptography libraries alongside Spring Boot and Node.js for robust security and efficient performance.

Full Stack Developer

OpusLab   Internship   1/9/2021 - 15/12/2021

- During my internship with Opuslab, I contributed to the development of a desktop and mobile application designed to help HR efficiently manage students and teachers.

Web Developer

Orenda   Part-time   1/1/2021 - 1/8/2021

- I collaborated with Orenda to create visually appealing and user-friendly landing pages for various businesses, focusing on the front end to effectively attract and engage users.

EDUCATION

Master's degree, Computer Science for Autonomous Systems

Budapest (HUN)

Eötvös Loránd University   2024- Present

- I am honored to have been awarded the prestigious Stipendium Hungaricum scholarship, which has allowed me to pursue a Master's degree in Computer Science for Autonomous Systems at Eötvös Loránd University (ELTE), one of Hungary's leading institutions.

Bachelor's degree in computer science

Manouba (TUN)

Higher Institute of Arts and Multimedia Manouba   2020- 2023

- Bachelor's Degree in Multimedia Computing with excellent honors, specializing in data structures, web development, and multimedia design.
